

# GreenPeak Vacancy

GreenPeak is a fabless semiconductor company offering innovative ultra-low power wireless and battery-free data communication controller chips for consumer electronics and wireless sense and control applications in consumer electronics applications for remote controls, home automation and security.

GreenPeak driven ultra-low power networks bring true maintenance-free wireless operation.

→ GreenPeak Technologies brings wireless and green solutions for control networks with high reliability and standard compliance and unique features that make it robust to interference.

→ GreenPeak shapes the consumer electronics of the future!

GreenPeak is successfully increasing the number of customers using its wireless IC products. To further strengthen our team, we currently have a vacancy for a

## Senior Product Engineer

### Your profile

- ▶ We are looking for a new team member to set-up the requirements and implement the tests for guaranteeing the lifetime quality of RF chips.
- ▶ You have experience with product and yield improvement techniques as well as how to reduce field failure rates.
- ▶ You hold a master degree in electrical engineering or physics, and are proficient in technical reporting.
- ▶ You can work independently.
- ▶ You are familiar with six sigma strategies for quality control, and have a strong drive to deliver the highest product quality to the customer.
- ▶ Dynamic working environment: new ideas are born and implemented as fast as you can manage.
- ▶ An internationally oriented position including frequent contact with subcontractors and suppliers.

### At GreenPeak, people make the real difference!

If you like to join our young and dynamic team and if you are convinced you will be a real asset to GreenPeak, we would be delighted to receive your CV.
